

## Bluehouse Precinct

Available in 174cm, 181cm, and 191cm

Locally made and sourced from 100% U.S. materials, the Bluehouse Precinct is handmade in the heart of Salt Lake City.

The Precinct features a late-stage rocker in its tip and tail, traditional camber, and a medium stiff flex - making this ski the go anywhere do anything ski. On groomers, the traditional camber and early rise tip let you turn with ease and the flex is perfect to make you feel stable at faster speeds. In soft snow the early rise tip and tail, act as training wheels making your powder skiing experience that much easier and more enjoyable.

The Precinct is designed for the following conditions and uses: All-Mountain/All-Terrain, Big-Mountain, Carving, Backcountry, Big Powder, Tight Trees, Speed, Variable Snow Conditions, Technical Terrain

### Look PX-12 XXL Bindings

The Look PX12 Jib is the ideal binding for lighter weights but still packs a punch. The PX12 offers high elastic travel for vertical and lateral movements preventing inadvertent release and extra shock and vibration absorption. The PX12 utilizes a gliding AFD to reduce friction in the event of a release.
